

No.: ISRCTN08188179/HĐKHKT-SGITO

MINUTES OF THE SCIENTIFIC AND TECHNICAL COUNCIL MEETING

Regarding Trial Registration

Opening time: 9:00 a.m., September 1, 2026

Venue: Meeting Room, Saigon-ITO Phu Nhuan Hospital

I. CONTENT

The Scientific and Technical Council (Ethics Committee) reviewed and approved the **ethical aspects of the research conducted by resident physician Le Van Chung.**

Research protocol title:

EFFICACY OF LOW-DOSE DEXMEDETOMIDINE FOR THE PREVENTION OF POSTOPERATIVE DELIRIUM IN ELDERLY PATIENTS UNDERGOING SURGERY FOR HIP FRACTURES: A RANDOMIZED, DOUBLE-BLIND, PLACEBO-CONTROLLED TRIAL

II. COUNCIL MEMBERS

Present:

1. Chairman: Assoc. Prof., PhD, MD Le Chi Dung
2. Council Secretary: Specialist Level II, MD Nguyen Thi Lan Huong
3. Member: PhD, MD Le Phuc
4. Member: PhD, MD Nguyen Vinh Thong
5. Member: Specialist Level II, MD Nguyen Thanh Tam
6. Member: Specialist Level II, MD Nguyen Thanh Chon

Absent: None

III. MEETING PROCEEDINGS

1. Announcement by the Council Secretary

The Council Secretary announced the General Director's Decision on the establishment of the Council to review and approve the research protocol of Dr. Le Van Chung.

2. Presentation of the Research Protocol

Dr. Le Van Chung presented a summary of the research protocol within 10 minutes.

3. Comments and Recommendations from Council Members

3.1. Comments by PhD, MD Le Phuc

The presentation complied with the allocated time and adequately covered the required content.

3.2. Comments by PhD, MD Nguyen Vinh Thong

The research question was considered highly relevant. Postoperative delirium, particularly in elderly patients, may create significant challenges in treatment and rehabilitation.

3.3. Comments by Assoc. Prof., PhD, MD Le Chi Dung

- The study objective of comparing the effectiveness of reducing the incidence of postoperative delirium following hip fracture surgery in elderly patients was considered appropriate.
- Regarding research ethics, the study was considered not to violate ethical principles. The Council was requested to grant permission for Dr. Le Van Chung to conduct data collection within the SAIGON-ITO Hospital System.

3.4. Comments by the Council Secretary, Specialist Level II, MD Nguyen Thi Lan Huong

The Council approved the proposal and agreed to allow Dr. Le Van Chung to conduct the research and collect data within the SAIGON-ITO Hospital System.

IV. CONCLUSION

Regarding the ethical aspects of biomedical research conducted within the SAIGON-ITO Hospital System:

1. The Council approved Dr. Le Van Chung to conduct the research and collect research data within the SAIGON-ITO Hospital System.
2. The Department of Anesthesiology and Critical Care and other relevant departments shall coordinate and facilitate Dr. Le Van Chung in collecting data and completing the research.

Closing time: 10:45 a.m. on the same day.

COUNCIL SECRETARY

Nguyen Thi Lan Huong

CHAIRMAN OF THE COUNCIL

Le Chi Dung
